**Yield & Income Factors:** Base Moisture = 13.0% Shrink = 1.0 Drying = \$0.000 Prices = \$10.40 GMO; \$10.40 non-GMO

**TEST COMMENTS:** *Stands were good here, despite being planted around Mothers Day and damp conditions that followed planting. For the most part, plants were standing better than most sites harvested so far this season. Most likely due to the fact that most plants were only 36" tall. There was very little evidence of disease that effected the plot area. Seed size was larger than average, which helped add to the yield.*

† See last page for abbreviation descriptions. Results in **bold** are significantly above test average by LSD (0.10). **ns** = column values not significantly different.
