**TEST COMMENTS:** *Mother Nature was hard on this location. 1) It was planted the day after Mothers day. Cool wet conditions hurt germination and final stand horribly, Eric referred to it as the "Mother's Day Massacre". 2) The first week of June a hail storm that left plants 3" tall with literally no leaves or cotyledons, just stems. It's really amazing on how well a bean plant will compensate to overcome challenges.*

† See last page for abbreviation descriptions. Results in **bold** are significantly above test average by LSD (0.10). **ns** = column values not significantly different.
