**Test Comments:** *Planted early in the season when conditions were very good. Plants were tall with medium sized girthy ears filled with deep kernels to the tip. At harvest, stalks were showing signs of weakness with breakage/lodging beginning to occur. Ears were pointed downward with weak ear shanks. Diaan stated that he is very pleased with yields this year despite the slow start and delayed harvest.*

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
