**Yield & Income Factors:** Base Moisture = 15.0% Shrink = 1.3 Drying = \$0.025 Prices: GMO = \$3.01; non-GMO = \$3.01

**Test Comments:** Just looking at this plot from a distance you could see the very large ears. Planting condition was very good. The site received rain at the right time to fill ears. Kernel sets were complete, filled to the ear tips with large kernels. Cobs were strong and shelling was easy. Plants were tall with little disease. Strong winds were in the area during harvest but plants stood strong without lodging issues.

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
