Test Comments: *Very healthy, excellent stand and consistently high yields at this test site. Ears had good girth and were filled to the tip. The test probably could have handled a slightly higher population given the good growing conditions and high level of management. Plant health was good and standability was excellent.*

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
