**Test Comments:** *Plenty of moisture at planting got the crop off to a good start. Corn never was never put under any stress throughout the season. Timely rainfall and lack of excessive heat made for fantastic yields. Overall rating of the plot was a 9 out of 10. (10=best)*

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
