LSD (0.10) = 15.6 ns 1

LSD (0.25) = 8.2 0.4 0

Test Comments: *This no-till field is well drained which helped with a timely May 8 planting date. Weed control was good all year. At harvest, plants stood well and had long ears with deep kernels to help deliver above average yield this year. Some wildlife damage was observed and was more prevalent in the early-season test.*

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
