TEST COMMENTS:

Soil conditions were excellent at planting, good moisture and temperatures were fine. Corn got off to a fast start, with good rains in June and July, August hit a period of some dry conditions but corn handled it quite well. Disease was moderate with gray leaf spot, anthracnose, and tar spot coming in very late in the season. Corn was standing very nice at harvest. The overall rating of the plot is an 8 out of 10. (10=best)
