Test Comments: *This was an outstanding looking plot that delivered very consistent yield results. May and June rainfall was slightly below normal but above normal rain returned July through September. Tall plants were standing strong with no stalk or root lodging noted. Well pollinated ears that pointed downward with strong shanks were filled with deep kernels. Leaf diseases were minimal. No weed escapes.*

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
