Yield & Income Factors: Base Moisture = 15.0% Shrink = 1.3 Drying = \$0.037 Prices: GMO = \$2.99; non-GMO = \$2.99

Test Comments: *Planting and germination conditions were very good at this site producing very good final stands. A preharvest walk-through showed stalk weakness at the nodes. Brace roots were large and holding plants well. Leaf diseases were observed in the test. Ears in the early hybrids had a small amount of tip die-back indicating some post-pollination stress. Ears were girthy with good kernel depth.*

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
