**Yield & Income Factors:** Base Moisture = 15.0% Shrink = 1.3 Drying = \$0.025 Prices: GMO = \$3.00; non-GMO = \$3.00

**Test Comments:** *Planting conditions were more marginal than hoped. The back portion of the site was wetter than expected as planting progressed, and unfortunately, it stayed wet all season as rains steadily fell throughout the year. Rainfall was above normal all year, even though no ponding occurred in any of Tim's fields until September. Heavy rains then, and more rains through October, delayed harvest here.*

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
