Test Comments: *Planting conditions were nearly perfect at this very level and uniform site. The stand was also near perfect. Ears were large with deep kernels filled out to the tip. The small amount of lodging observed was due to stalk lodging. Brian, our farmer cooperator here, said that he had 26" of rain on this site from mid-August through harvest.*

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
