**TEST COMMENTS:** *The test was planted into good soil conditions. Early season rain helped provide a good start. A June hail storm caused minor damage to the test but the surrounding field took the brunt of the storm. Jason, our host grower, applied insecticide and fungicide to protect the field. Dry weather conditions the last half season slowed plants down. Plants stood 35-40 inches tall with good pod sets.*

† See last page for abbreviation descriptions. Results in **bold** are significantly above test average by LSD (0.10). **ns** = column values not significantly different.
